WELCOME TO LEGO® ART

To create a masterpiece, you must challenge convention, trust the process and allow your idea to form, little by little. Claude Monet (1840–1926) once said, “Merely think, here is a little square of blue, here an oblong of pink, here a streak of yellow... until it gives your own naïve impression of the scene before you.” We couldn’t think of a more appropriate introduction to LEGO® Art.

BUILDING PROCESS

Claude Monet cultivated his water-lily pond "for the pleasure of the eye and also for motifs to paint". Few motifs are as widely recognised as his water lilies. With LEGO® Art, you can now retrace the strokes of a great painter.

Claude Monet (1840–1926) in his garden at Giverny

Bridge over a Pond of Water Lilies. Claude Monet (French, 1840–1926). Oil on canvas, 92.7 x 73.7 cm., 1899. H. O. Havemeyer Collection, Bequest of Mrs. H. O. Havemeyer, 1929 29.100.113

THE BEAUTY OF THE FLEETING MOMENT

The French artist Claude Monet is synonymous with Impressionism. Beginning in the 1860s, he developed an innovative style of flickering strokes of vivid colour to suggest the changing effects of light and motion. *Bridge over a Pond of Water Lilies* captures Monet's profound creative connection with the water garden that he built near his home in Giverny outside of Paris. The painting is one of a series of eighteen views from 1899 and 1900 depicting the pool from the same vantage point. Layers of feathery brushwork in delicate hues of green and blue evoke slender willows and rounded water lilies, which are mirrored in the pond. The arched footbridge and its reflection contrast with the soft greenery and shimmering water.

*"My garden is my
most beautiful masterpiece."*

- Claude Monet

CLAUDE MONET'S GARDEN AT GIVERNY

In 1883, Claude Monet moved to Giverny, a village near Paris, which offered the space and tranquillity to pursue both his landscape painting and his serious passion for gardening. Over the years, he gradually expanded and reshaped the property into his personal retreat and artistic sanctuary, with a variety of plants and scenery. Inspired in part by Japanese art and garden design, he introduced exotic plants and trees, added a footbridge and diverted a stream to enlarge his water-lily pond. Giverny was Monet's laboratory to explore the beauty of light, colour, weather and the seasons. The garden became his major subject, inspiring hundreds of paintings and stimulating his constant innovation. The artist's home and garden at Giverny are now a dedicated museum.

WELCOME TO THE MET

The Metropolitan Museum of Art in New York displays tens of thousands of objects covering 5,000 years of art from around the world for everyone to experience and enjoy. The Museum is organised into 19 curatorial departments, including European Paintings. Established in 1871 with 174 paintings, the European Paintings collection now features over 2,500 works of art from the thirteenth to the early twentieth century. Among the highlights is Claude Monet's iconic *Bridge over a Pond of Water Lilies*. Combining classic LEGO® elements in creative constellations offers a playful approach to the discovery of this beloved work. The LEGO team had a fantastic time visiting the Museum, where we explored the painting in depth with the help of Met experts.

FROM THE LEGO® ART DESIGN TEAM

The pioneer of Impressionism, Claude Monet now makes a long-awaited addition to our LEGO® Art collection. His distinctive brushwork ranges widely in colour, shape, texture and orientation. When we create a model with this many different elements, we direct a lot of our attention to the building experience, making sure that it's as intuitive as possible, and drawing you into the creative process of an Impressionist painting. You'll be using many elements that represent Monet's style, and there is a fun rhythm to the build as you alternate between techniques and see the image take shape.
